# Background

- **VDOT and Fairfax County are working together to construct the Compton Road Shared Use Path (SUP) Project which will provide connectivity between the Bull Run Special Events Center and Cub Run Trail System**
- **The project will include the widening of an existing bridge over Cub Run**
- **The path will improve mobility and travel choices for pedestrians and bicyclists in this area**
- **The Compton Road SUP will provide a connection to surrounding existing and/or future trails**

# Project Location/Connection to Surrounding Trails

# Project Overview

- **SUP South of I-66:** This section will be constructed south of the I-66 bridges to Bull Run Special Events Center Drive (including a crossing of Compton Road); the SUP will be approximately 430' long and 10' wide
- **SUP North of I-66:** This section will be constructed north of the I-66 bridges and will provide a connection with the existing Cub Run Trail; this segment includes items that will add to the construction duration which are the widening of the existing bridge over Cub Run and a waterline relocation for the project fill slopes; the SUP will be approximately 380' long and 10' wide
